Dear Sirs,  
 Approximately 10 years ago we decided to plant a Rhododendron in our backyard. We were told by many that it would not survive the winter cold temperatures in Illinois. I discussed this with a local nursery and they suggested I use Wilt-Pruf prior to freezing weather.  
 I have used Wilt-Pruf every winter since then and the Rhododendron has done GREAT!  
 I am attaching a photo of this year's blossoming. It has continued to grow and produce these kind of results every year. We have never seen a Rhododendron this large.  
 The neighborhood is continually impressed every year.  
 Thank you,  
 Ernie & Edna West
